The Berryhill Nursery Co.

Warranty

We send our patrons quality stock and warrant it to be true to name, and will replace any that may prove otherwise. Our liability, however, in all cases, shall be limited to an amount equal to the purchase price of such stock.

All nursery stock purchased from and planted by us, which does not survive transplanting during the first year from date of invoice, is replaced without charge, providing reasonable care of such stock has been given.

Specially Selected Stock

Stock specially selected by customers at the nursery will be charged for in accordance with the value of the stock, irrespective of catalogue prices.

Prices

Prices in this catalogue cancel all previous lists and are subject to change without notice.

Prices include packing except on extra-bulky pieces, for which packing a cost charge will be made.

Prices are quoted f. o. b., Harrisburg, Pa.

Terms of Sale

Our regular terms of sale are 2 per cent 10 days, **30 days net**. If terms other than the above are desired, special arrangements must be made with the Credit Department.

All accounts not paid within 60 days are subject to a charge of 6 per cent.

Shipments

Shipments can be made by parcel post, express, and freight. Unless specified, we use our best judgment as to method of shipment, depending upon the weather conditions and the nature of the stock.

The spring shipping season generally begins about March 15 and continues until about June 1. The fall shipping season generally begins about August 1 and continues until the ground freezes.

Express and freight shipments are forwarded collect unless otherwise specified.

Parcel post charges are added to the invoice, or should be included with the remittance when forwarded in advance.

Delivery

We deliver within the city of Harrisburg without charge.

We deliver within a radius of 10 miles of Harrisburg at specified times without charge.

All other deliveries are made at reasonable rates.

INTRODUCTION

THE BERRYHILL NURSERY COMPANY was established August 10, 1907, and was incorporated under the laws of the Commonwealth of Pennsylvania, April 27, 1911, for the propagation, growing, and sale of ornamental nursery stock.

LOCATION

The nursery grounds proper are accessibly located on the Jonestown State Road, less than 3 miles northeast of Harrisburg city line. Cars on the Linglestown street car line stop at the entrance to the nursery.

We also have a mountain nursery located at what is commonly known as Indiantown Gap, about 25 miles east of Harrisburg, at which place we specialize in the production of Rhododendrons, Hardy Azaleas, Mountain Laurels, Hemlocks, Flowering Dogwoods, and other native trees and shrubs.

Our nurseries are open on week-days from 8 o'clock a.m. to 6 o'clock p.m.; Sundays from 10 o'clock a.m. to 4 o'clock p.m.

Care and Attention of Nursery Stock

Until planted, keep moist and protected from sun and wind. Soil should be thoroughly cultivated and fertilized.

EVERGREENS. Dig hole larger than ball and place stock with earth-ball and burlap intact in hole. Fill with soil around lower half, tamping solidly. Loosen burlap at top, fold back, then fill hole with soil, packing around ball, and water thoroughly. The burlap will soon rot away and will not retard growth of stock.

SHRUBBERY is usually dug with bare roots. Make hole sufficiently large to easily contain the roots. Fill with good soil, pack firmly, and water thoroughly. All shrubbery should be cut back severely at time of planting, usually from one-third to one-half of the top being removed.

TREES. Dig hole large enough to contain roots naturally. Cut off all broken or bruised parts of roots. It is very important not to plant tree deeper than planted in nursery. This is easily determined by the dirt-line on the trunk. Press earth down firmly, embedding all roots, using good topsoil. Water thoroughly. Trim all broken or bruised branches and also two-thirds of previous year's growth. Stake all large trees or trees standing in exposed places.

PERENNIALS. Plant in well-spaded soil containing well-rotted manure or compost. Usually the plants should be set with the crowns on a level with the ground. Crowns of peonies should be set 2 inches below surface. Water thoroughly.

Additional Watering. It is important, during the first year, that all nursery stock be kept in a moist condition. This means a thorough soaking once or twice a week.

Winter Care. A heavy mulch of straw, leaves, peat or strawy manure, applied just after the ground freezes, will prevent winter-killing of newly planted stock.

LANDSCAPE SERVICE

WE OFFER the services of our Landscape Department to all who contemplate the development of their grounds.

By having definite plans in the beginning, it is a pleasure to work them out in stages, if so desired, planting a little each spring and fall, and all the time working toward a definite and harmonious result.

We give advice and suggestions at all times without any charge.

Specially prepared plans are furnished without charge when the materials are purchased from us.

When the materials are purchased elsewhere and planted generally in accordance with our plans, a charge of 10 per cent of our suggested planting list is made.

PLANTING

Nursery stock purchased from our nurseries is planted **without charge**.

EVERGREEN TREES

ABIES · The Firs

Abies concolor (White Fir.) A very hardy and graceful tree. Foliage heavy, gray-green; cones usually purple. Grows rapidly and to considerable height. An excellent landscape tree. 4 ft., \$10 each.

A. Fraseri (Double Balsam Fir.) Very beautiful and hardy evergreen. Rapid grower. Foliage glossy green, silvery underneath.

Each		Each	
1 to 1½ ft.	\$2 00	2 to 2½ ft.	\$4 00
1½ to 2 ft.	3 00	2½ to 3 ft.	5 00

CHAMAECYPARIS

The Japan Cypress

Chamaecyparis filifera. Bright, shiny green foliage and threadlike, drooping branches make this tree especially valuable for specimen planting.

Each		Each	
1½ to 2 ft.	\$3 50	2½ to 3 ft.	\$5 50
2 to 2½ ft.	4 50	4 to 5 ft.	9 00

C. lawsoniana erecta viridis.

Each		Each	
1½ to 2 ft.	\$3 00	2½ to 3 ft.	\$5 00
2 to 2½ ft.	4 00		

C. lawsoniana, Triomphe de Boskoop.

Each		Each	
1 to 1½ ft.	\$2 50	2 to 2½ ft.	\$5 00
1½ to 2 ft.	3 25		

C. obtusa gracilis (Slender Hinoki Cypress). 1½ ft., \$3 each.

C. pisifera (Sawara Cypress). A medium-sized tree with erect, compact branches. Foliage is dark green and presents a very pleasing contrast when the tree is planted in front of brighter colored evergreens. A formal tree of pyramidal outline.

Each		Each	
1½ to 2 ft.	\$3 00	2 to 2½ ft.	\$3 75

C. pisifera aurea. In habit this tree is similar to the above. Foliage is feathery and a deep golden color. A beautiful tree for specimen planting.

Each		Each	
1 to 1½ ft.	\$2 50	2½ to 3 ft.	\$4 50
1½ to 2 ft.	3 00	3 to 3½ ft.	6 00
2 to 2½ ft.	3 50	3½ to 4 ft.	8 50

C. plumosa (Plume Cypress). An erect tree, with slender, erect branches and dense, feathery, dark green foliage. A very attractive tree for either hedge or specimen planting.

Each		Each	
1 to 1½ ft.	\$2 00	2½ to 3 ft.	\$5 00
1½ to 2 ft.	3 00	4 to 5 ft.	10 50
2 to 2½ ft.	4 00		

C. plumosa aurea (Gold-plumed Cypress). In most respects similar to the above. Foliage is a beautiful golden yellow. A very popular evergreen and widely used in specimen planting.

Each		Each	
1½ to 2 ft.	\$3 00	2½ to 3 ft.	\$5 00
2 to 2½ ft.	4 00	3 to 3½ ft.	7 50

Chamaecyparis, continued

C. squarrosa (Silver Retinospora). An evergreen of great merit and beauty and of compact, dense growth. Very hardy and ornamental in many places. It is usually trimmed into a fine, shapely pyramidal with silvery, bluish green foliage of a feathery character.

	Each	Each
1 to 1½ ft.	\$2 50	1½ to 2 ft. \$3 00

C. squarrosa sulphurea. A very beautiful and hardy variety of the Silver Cypress, with a sulphur-yellow tint. 1½ to 2 ft., \$3.50 each.

JUNIPERUS · The Cedars

Juniperus canadensis. Splendid for mass plantings. A low grower. Foliage clear, silvery green. 1½ to 2 ft., \$3 each.

J. chinensis albo-variegata. 1 to 1½ ft., \$3 each.

J. chinensis Pfitzeriana. An excellent tree for both mass and specimen planting. Foliage is silvery green with white markings on under side. The best of all the dwarf-growing evergreens.

	Each	Each
1 to 1½ ft.	\$3 00	1½ to 2 ft. \$4 00

J. communis depressa plumosa. 2 to 3 ft., \$6 each.

J. communis hibernica (Irish Juniper). One of the finest Junipers for ornamental planting. The trunk is straight, and the branches very closely appressed to the trunk, giving the tree a formal and columnar appearance. Foliage sea-green. 2 to 2½ ft., \$2.75 each.

J. virginiana (Red Cedar). The Red Cedar is our hardiest and most popular native evergreen. The natural tree forms a fine conical pyramid, but it can easily be trained into almost any form desired. It is extensively used for group and screen-planting, and for hedges. It is densely branched, the color varying from a reddish to a dark green, and is often of a glaucous tint. Collected plants.

	Each	10
2 to 3 ft.	\$2 00	\$17 50
3 to 4 ft.	3 00	25 00
4 to 5 ft.	4 50	40 00
5 to 6 ft.	6 00	50 00
6 to 8 ft.	\$8 to 10 00	75 00
8 to 10 ft.	\$10 to 12 00	90 00
12 to 14 ft.	\$12.50 to 15 00	

J. virginiana elegantissima (Lee's Golden Juniper).

	Each	Each
2 to 2½ ft.	\$4 00	3 to 4 ft. \$7 00
2½ to 3 ft.	5 00	

J. virginiana glauca (Blue Cedar). The leading Cedar for specimen planting. Foliage bright silvery blue. Tree is pyramidal in outline. A beautiful variety worthy of wide planting.

	Each	Each
2½ ft.	\$5 00	3 ft. \$7 00

J. virginiana globosa (Globe Juniper).

	Each	Each
1 ft.	\$3 00	1 to 1½ ft. \$4 00

J. virginiana pendula.

	Each	Each
2 to 3 ft.	\$4 00	3 to 4 ft. \$5 00

J. Sabina (Compact Savin Juniper). A low grower of somewhat bushy habit. Foliage dark green and dense. For rockeries and mass plantings.

	Each	Each
1 to 1½ ft.	\$2 50	1½ to 2 ft. \$3 50

J. squamata. Somewhat similar to *J. procumbens*, but more compact in habit. Hardy and vigorous. 1 to 1½ ft., \$3.50 each.

PICEA · The Spruces

Picea canadensis (White Spruce). A very attractive tree of compact pyramidal form. Foliage is silvery gray. Grows to about 40 feet. Good for mass plantings. Each

1 ½ to 2 ft.....	\$2 50		2 to 2 ½ ft.....	\$3 50
------------------	--------	--	------------------	--------

P. excelsa (Norway Spruce). A handsome tree widely used for Christmas trees. Foliage is dark, shining green. Valuable for hedges, masses, and specimens. Each

1 to 1 ½ ft.....	\$1 75		2 ½ to 3 ft.....	\$3 00
------------------	--------	--	------------------	--------

1 ½ to 2 ft.....	2 00		5 to 6 ft.....	10 00
------------------	------	--	----------------	-------

2 to 2 ½ ft.....	2 50			
------------------	------	--	--	--

P. pungens (Colorado Spruce). The original form, of which the famous Colorado Blue Spruce is a variety. The color of the very stiff needles is a dull bluish green. Each

1 to 1 ½ ft.....	\$2 50		2 to 2 ½ ft.....	\$4 25
------------------	--------	--	------------------	--------

1 ½ to 2 ft.....	3 00			
------------------	------	--	--	--

PINUS · The Pines

Pinus montana Mughus (Dwarf Mugho Pine). A low tree of dense compact habit. Foliage is a deep full green. The tips of the branches are curved upward. A spreading tree for specimen planting, but also good for massing. Each

1 to 1 ½ ft.....	\$4 50		1 ½ to 2 ft.....	\$6 00
------------------	--------	--	------------------	--------

P. nigra (Austrian Pine). A handsome tree of graceful growth. Foliage is a very deep green, stiff and prickly. Very hardy and worthy of a place on your lawn. Each

1 ½ to 2 ft.....	\$3 00		3 ½ to 4 ft.....	\$5 50
------------------	--------	--	------------------	--------

2 to 2 ½ ft.....	3 50		4 ½ to 5 ft.....	8 50
------------------	------	--	------------------	------

2 ½ to 3 ft.....	4 00		5 to 6 ft.....	10 00
------------------	------	--	----------------	-------

3 to 3 ½ ft.....	4 50			
------------------	------	--	--	--

P. resinosa (Red Pine). A giant tree growing to 120 feet in height. Its habit is broad and spreading, pyramidal in outline. Leaves stiff, pointed, grayish green. Each

2 to 2 ½ ft.....	\$3 50		6 to 8 ft.....	\$10 to \$12 00
------------------	--------	--	----------------	-----------------

2 ½ to 3 ft.....	4 00		8 to 10 ft.....	20 00
------------------	------	--	-----------------	-------

3 to 4 ft.....	5 00			
----------------	------	--	--	--

P. Strobus (White Pine). A very hardy tree of open growth. The foliage is bright green and droops gently, but not enough to present a weeping appearance. Bark smooth; very dark. 10 to 12 ft., \$20 each.

P. sylvestris (Scotch Pine). A graceful tree with round, shapely head. Leaves are bluish green and rather stiff. Tree is a rapid grower and reaches considerable height. Each

1 ½ to 2 ft.....	\$3 00		3 ½ to 4 ft.....	\$5 50
------------------	--------	--	------------------	--------

2 to 2 ½ ft.....	3 50		5 to 6 ft.....	9 00
------------------	------	--	----------------	------

2 ½ to 3 ft.....	4 00		6 to 8 ft.....	12 00
------------------	------	--	----------------	-------

3 to 3 ½ ft.....	4 50			
------------------	------	--	--	--

PSEUDOTSUGA

Pseudotsuga Douglasi (Douglas Spruce). This beautiful evergreen resembles a spruce but is botanically different. Of graceful, symmetrical growth. Soft, dark green needles. Each

1 to 1 ½ ft.....	\$2 50		2 to 2 ½ ft.....	\$4 00
------------------	--------	--	------------------	--------

1 ½ to 2 ft.....	3 00		2 ½ to 3 ft.....	5 00
------------------	------	--	------------------	------

TAXUS · The Yews

Taxus canadensis (Canadian Yew). Of low, spreading habit. 1 to 1½ ft., \$2.50 each.

T. cuspidata (Japanese Yew). A very hardy tree growing to variable height. Foliage is deep green and neat appearing.

	Each	Each
1½ to 2 ft.....	\$5 50	2 to 2½ ft.....\$7 50

THUYA · The Arborvitæ

Thuya occidentalis (American Arborvitæ). A hardy tree, with somewhat spreading base, but of a pronounced pyramidal outline. Foliage is bright green.

	Each	Each
1½ to 2 ft.....	\$2 00	3½ to 4 ft.....\$5 50
2 to 2½ ft.....	2 50	4 to 4½ ft.....6 50
2½ to 3 ft.....	3 50	4½ to 5 ft.....7 50
3 to 3½ ft.....	4 50	

T. occidentalis globosa. A handsome tree, with a round compact head. Foliage dark green.

	Each	Each
1 ft.....	\$2 00	1½ to 2 ft.....\$4 00
1 to 1½ ft.....	2 50	

T. occidentalis lutea (George Peabody's Arborvitæ). Pronounced by many the most beautiful Arborvitæ. Its form is a broad pyramid, densely covered with golden yellow foliage. Holds its color better than other golden Arborvitæ.

	Each	Each
1 to 1½ ft.....	\$1 75	1½ to 2 ft.....\$2 75

T. occidentalis pyramidalis (Pyramidal Arborvitæ). A most shapely evergreen, having a uniform pyramidal outline which it retains at all times. Foliage light green.

	Each	Each
1 to 1½ ft.....	\$1 50	2½ to 3 ft.....\$4 00
1½ to 2 ft.....	2 50	3 to 4 ft.....6 00
2 to 2½ ft.....	3 25	

T. occidentalis sibirica (Siberian Arborvitæ). Lower and denser than American Arborvitæ with stouter branches; foliage glaucous green.

	Each	Each
1 ft.....	\$1 25	1½ to 2 ft.....\$2 75
1 to 1½ ft.....	1 75	

T. occidentalis spiralis (Douglas Arborvitæ). Very beautiful, hardy, and of pyramidal habit.

	Each	Each
1 to 1½ ft.....	\$1 50	2 to 2½ ft.....\$3 75
1½ to 2 ft.....	2 75	2½ to 3 ft.....4 25

T. orientalis (Chinese Arborvitæ). Quite distinct from the American Arborvitæ. Deep green, soft, feathery foliage; upright growing.

	Each	Each
2 ft.....	\$2 00	2½ to 3 ft.....\$3 50
2 to 2½ ft.....	2 50	3 to 3½ ft.....4 50

T. orientalis aurea nana. Fine plant of dwarf habit, compact and bushy. Beautiful, rich golden-tipped foliage. 1 to 1½ ft., \$3.50 each.

TSUGA · The Hemlocks

Tsuga canadensis (Hemlock Spruce). One of our magnificent native evergreens. It grows rapidly in almost any soil and situation.

	Each	Each
1 to 1½ ft.....	\$2 00	2½ to 3 ft.....\$4 00
1½ to 2 ft.....	2 50	3 to 3½ ft.....5 00
2 to 2½ ft.....	3 50	3½ to 4 ft.....6 00

EVERGREEN SHRUBS

ABELIA

Abelia grandiflora. One of our most useful evergreen shrubs and very hardy. The graceful, arching branches are clothed with fine, dark, glossy leaves. The white flowers appear in profusion from spring until frost. Field-grown, \$1 each.

AZALEA

Azalea amœna (Hardy Evergreen Azalea). A bushy, low-growing shrub bearing purple flowers. The foliage is green in summer, becoming golden in fall and winter. A very neat shrub for ornamental effects.

	Each	Each
1 ft.	\$3 00	1 to 1½ ft. \$4 00

A. Hinodigiri. In some respects similar to Amœna. Foliage is bright green. Flowers are vivid bright red. A profuse bloomer and an excellent shrub for ornamental planting. 8 to 10 in., \$2.50 each.

A. indica alba. A beautiful shrub bearing an abundance of snowy white flowers. Hardy and appropriate for mass or specimen planting. 1 to 1½ ft., \$4 each.

A. Kaempferi. A new variety of great hardiness. Tall grower, bearing a myriad of dull red flowers of large size. An excellent shrub for planting anywhere. 1 to 1½ ft., \$4.50 each.

BUXUS · Boxwood

Buxus sempervirens (Common Tree Box). The most popular of all Boxwoods.

Each	10	100	Each
6 in.	\$0 30	\$2 75	\$25 00 1 ft. \$2 00
9 in.	50	4 00	35 00

COTONEASTER

Cotoneaster horizontalis (Prostrate Cotoneaster). A dwarf variety of trailing habit. Foliage is dark green changing to bronzy red in the fall. In winter it bears a profusion of scarlet berries. An excellent shrub for planting in rock-gardens. 1 to 2 ft., \$2 each.

EUONYMUS

Euonymus japonicus (Evergreen Euonymus). An ornamental shrub, with stiff glossy foliage. Can be used very effectively as tubbed plants.

Each	Each
10 to 12 in.	\$1 00 1 to 1½ ft. \$1 50

ILEX · Holly

Ilex opaca (American Holly). A shrubby tree, with short, spreading branches. Foliage is abundant, large, and shining. Berries scarlet, borne in winter.

Each	Each
1½ to 2 ft.	\$3 50 2½ to 3 ft. \$4 50
2 to 2½ ft.	4 00

KALMIA · Laurel

Kalmia latifolia (Mountain Laurel).

	Each	10	100
1 to 1½ ft.....	\$1 50	\$12 50	\$100 00
1½ to 2 ft.....	2 50	22 50	200 00

LAUROCERASUS

Laurocerasus schipkaensis (Schipka Laurel). The only hardy evergreen Cherry Laurel known. One of our most beautiful evergreen shrubs. 1 to 1½ ft., \$2.50 each.

LEUCOTHOE

Leucothoe Catesbæi. The foliage is variegated, turning to bronze in fall and winter. Flowers white. A low-growing shrub much used in border planting and under trees. A very pretty shrub. 1½ ft., \$2.50 ea.

MAHONIA

Mahonia Aquifolium (Holly-leaved Mahonia). A rather dense shrub of bushy habit. Branches erect, numerous, and densely clothed with handsome foliage. Leaves are green and purple in summer, changing to red and yellow in the fall and remaining through winter. A large number of yellowish flowers are borne during May.

	Each	Each
1 to 1½ ft.....	\$1 50	2 00
1½ to 2 ft.....	2 50	5 00

MYRICA

Myrica cerifera (Wax Myrtle). Splendid shrub, with dark green, fragrant foliage, held almost through the winter. Reddish flowers appear in May, followed by white, waxy berries. 1½ to 2 ft., \$1 each.

RHODODENDRONS

Rhododendron carolinianum (Carolina Rhododendron). Flowers light pink.

	Each	Each
1½ to 2 ft.....	\$4 00	\$5 00
2 to 3 ft.....	5 00	10 00

R. catawbiense. This is the native Rhododendron of the Carolina mountains, of great beauty and hardiness. Large flower; trusses of a beautiful reddish purple.

	Each	Each
1 to 1½ ft.....	\$3 00	\$5 00
1½ to 2 ft.....	4 00	5 00

R. maximum (Great Laurel). The strong-growing, native Rhododendron of the northern mountains. The large, oblong leaves are of a glossy green, becoming darker when grown in a shaded position. The great white or rosy pink flowers appear in June and July.

	Each	10	100	Each	10
1 to 1½ ft..	\$2 00	\$17 50	\$150 00	2 to 2½ ft.....	\$3 50 \$32 50
1½ to 2 ft..	2 75	25 00	225 00	2½ to 3 ft.....	5 00 47 50

DECIDUOUS ORNAMENTAL AND SHADE TREES

ACER · Maple

Acer campestre (European Cork Maple). This Maple does not grow very tall, but it has numerous branches and myriads of small dull green leaves, making a compact appearance. A good lawn tree, for it affords an abundance of shade. 6 to 8 ft., \$2.50 each.

A. dasycarpum (White or Silver-leaved Maple). A rapid-growing tree attaining considerable size. Leaves are bright green on top, with a silvery sheen on under side, deeply cut and five-lobed.

	Each	to		Each	to
6 to 8 ft.\$1 00		\$9 00	8 to 10 ft.\$1 50 \$12 50

A. platanoides (Norway Maple). A tall grower, straight, and carries a handsome, round, spreading head. The leaves are dark green, glossy, and very dense; about 6 inches across. In fall the Norway Maple is very beautiful with its patches of green, yellow, and golden foliage.

	Each		Each
10 to 12 ft.\$6 00	12 to 14 ft.\$9 00

A. platanoides Schwedleri (Schwedler's Norway Maple). The young foliage and shoots are bright violet-purple, changing to greenish purple. A handsome and valuable tree for lawn planting.

	Each		Each
8 to 10 ft.\$6 00	10 to 12 ft.\$7 50

A. rubrum (Red or Scarlet Maple). This is a large tree, with bold green foliage. This variety bears numerous scarlet flowers in spring. The leaves turn to scarlet in the fall. An excellent specimen tree, especially valuable in low or wet locations. 10 to 12 ft., \$4.75 each.

A. saccharum (Sugar or Rock Maple). An unusually good tree for street planting and very useful on lawns. Shape is rather symmetrical; leaves sea-green and shining, becoming vari-colored in fall. A slow grower, but one of the best Maples for general planting.

	Each		Each
8 to 10 ft.\$2 50	10 to 12 ft.\$3 50

A. tataricum ginnala (Siberian Maple). A graceful, dwarf tree of shrubby habit; very hardy and splendid for its foliage effect. 4 to 6 ft., \$2.50 each.

JAPANESE MAPLE

A. palmatum atropurpureum. A handsome tree. Foliage deep glowing red and deeply cut. A very good specimen tree on the lawn. 1 to 1½ ft., \$5.50 each.

AESCULUS (Horse-Chestnut)

Aesculus glabra (Smooth-leaved Ohio Buckeye). A stately tree of variable size. Leaves broad, dark green, and numerous. Bears trusses of greenish yellow flowers. 12 to 14 ft., \$7.50 each.

Aesculus, continued

Æ. Hippocastanum (European White-flowering Horse-Chestnut). A handsome tree of symmetrical shape. Foliage dark green, turning to gold and brown. Bears large, pyramid-shaped clusters of cream-colored flowers in early spring. Each Each

4 to 6 ft. \$1 75 | 12 to 14 ft. \$8 00
6 to 8 ft. 2 75

Æ. parvifolia (Bottlebrush Buckeye). Shrub 3 to 10 feet, panicles 8 to 16 inches long. A very handsome plant for a lawn clump. 4 to 5 ft., \$4 each.

BETULA · Birch

Betula alba (European White Birch). With its beautiful white bark it is frequently termed the "Maiden amongst trees." Whether planted as a specimen or in colonies it is always attractive and prominent in a landscape. The first leaves out in spring, on slender, drooping branches, represent probably the most dainty shade of any leaf-green produced in nature. Each Each

5 to 6 ft., B&B. \$3 00 | 6 to 8 ft., B&B. \$4 50

B. alba laciniata pendula (Weeping Cut-leaved White Birch). One of the noblest weeping trees for park and lawn use, as when quite a young tree it acquires a weeping habit and a beautiful white bark; the foliage is delicately cut. 5 to 6 ft., B&B, \$5 each.

B. papyrifera (Canoe Birch). Ornamental tree with cream-white trunk and a loose, graceful head when older. Bark known for its use in making Indian canoes. 8 to 10 ft., B&B, \$6.50 each.

CARPINUS · Hornbeam

Carpinus Betulus. This is a hardy ornamental tree with a round compact head. Foliage deep green, changing in autumn to yellow and brown, and remaining through winter. An excellent hedge plant or for formal planting. 10 to 12-ft. specimens, \$15 each.

THE CATALPAS

Catalpa Bungei (Umbrella Tree). The trunk is straight and the head spreads out in umbrella fashion. The leaves are heart-shaped, large, and so numerous as to make a very dense, compact head.

Each Each
2-yr. heads. \$3 50 | 3-yr. heads. \$4 50

C. speciosa (Western Catalpa). A fine-looking tree giving a tropical effect. Large oval leaves and fragrant purple-and-white flowers. Grows naturally in our climate. 6 to 8 ft., \$1 each, \$7.50 for 10.

CERCIS · Judas Tree; Red-Bud

Cercis canadensis. A medium-sized tree bearing purplish flowers. Leaves are heart-shaped and clear green. An excellent lawn tree.

Each Each
4 to 5 ft. \$1 25 | 6 to 8 ft. \$2 00
5 to 6 ft. 1 50

Miscellaneous supplies, including lawn grass seed, fertilizers, garden furniture, and so on, will be found on page 28

CORNUS · Dogwood

Cornus florida (White-flowering Dogwood). One of our most valuable native trees for landscape planting. In early May, large white blossoms appear before the leaves; in fall, bright red berries and beautifully tinted foliage make the tree stand out in every landscape.

Each		Each	
5 to 6 ft., B&B.....	\$2 50	8 to 10 ft., B&B.....	\$6 50
6 to 8 ft., B&B.....	3 50	10 to 14-ft., spec., B&B....	25 00

C. florida rubra (Red-flowering Dogwood). Has the same good habit as the species, but the flowers are deep pink. 3 to 4 ft., B&B, \$7.50 each.

FAGUS · Beech

Fagus sylvatica (European Beech). Tree to 80 ft. Dark green glossy leaves, pale beneath. Dignified tree for lawn or park planting.

Each	
8 to 10 ft., B&B.....	\$10 to \$12 00
10 to 14-ft. spec., B&B.....	\$25 to 35 00

FRAXINUS · Ash

Fraxinus americana (White Ash). A straight, tall-growing tree of good shape. Foliage is dull green fading to bronze in fall.

Each		Each	
10 to 12 ft.....	\$2 50	12 to 14 ft.....	\$3 50

GINKGO

Ginkgo biloba (Maidenhair Tree). A handsome street and lawn tree, defying smoke, dirt, and insects. Erect, pyramidal grower, with small heart-shaped leaves. Extensively used in Washington as a street tree. Perfectly hardy as far north as Canada.

Each		Each	
6 to 8 ft.....	\$2 50	8 to 10 ft.....	\$3 00

GYMNOCLADUS

Kentucky Coffee Tree

Gymnocladus canadensis. An interesting tree bearing large brownish seed-pods. Foliage is palm-like with bluish green color. A good lawn tree. 6 to 8 ft., \$2 each.

KOELREUTERIA · Varnish Tree

Koelreuteria paniculata. A small shrubby tree, bearing pretty golden yellow flowers. Leaves purple in spring, changing to bright green, turning to bronze and red in fall. A handsome lawn tree. 10 to 12-ft. specimens, \$7.50 each.

LARIX · Larch

Larix europæa (European Larch). A tall stately tree growing to 100 feet. Slender conical head in young specimens, becoming broad and irregular as the tree gets older. Foliage feathery and bright green. A peculiarity of the Larch is its being a cone-bearing tree. Remarkable for lawn and ornamental planting. Each

Each		Each	
2 to 2½ ft., B&B.....	\$2 50	16 to 20-ft. spec., B&B...	\$40 00
3 ft., B&B.....	3 00		

LIQUIDAMBAR · Sweet Gum

Liquidambar styraciflua. A handsome tree with a neat pyramidal head. Leaves glossy green, deeply cut, giving them a star-like appearance. A brilliantly colored tree in summer and fall. Should be planted in spring.

	Each	Each
3 to 4 ft.....	\$1 50	10-ft. specimens, B&B... \$15 00
4 to 6 ft.....	2 50	

LIRIODENDRON · Tulip Tree

Liriodendron Tulipifera. A handsome lawn tree of pyramidal outline. Large leaves with blunt, square ends, bluish green above and paler beneath. In May this tree bears a multitude of greenish yellow and orange tulip-shaped flowers. Grows to gigantic size, sometimes nearly 200 feet. Better results are obtained from trees planted in spring, and dug with ball of dirt for it gives the roots lots of time to establish themselves before cold weather comes.

	Each	Each
5 to 6 ft., B&B.....	\$2 00	10 to 12 ft., B&B..... \$4 50
6 to 8 ft., B&B.....	2 50	12 to 14 ft., B&B..... 8 00
8 to 10 ft., B&B.....	3 00	

MALUS · Flowering Crab

Malus atrosanguinea. A fine ornamental shrub of good size. Flowers and foliage are deep purple, followed by small fruits.

	Each	10
3 to 4 ft.....	\$2 00	
4 to 5 ft.....	2 50	\$22 50
5 to 6 ft.....	4 50	42 50
6 to 8 ft.....	5 50	
10 to 12-ft. specimens, B&B.....	\$15 to 25 00	

M. floribunda. A handsome shrub, bearing sweet-scented, pink flowers. April. 5 to 6 ft., \$4.50 each.

M. ioensis Bechteli (Bechtel's Double-flowering Crab). A fine shrub, forming a symmetrical compact bush. The rose-like flowers are fragrant, double, and freely produced. 3 to 4 ft., \$2.25 each.

M. Scheideckeri (Double-flowering Crab). The flowers of this variety are rosy white and of double formation. 4 to 6 ft., \$4.50 each.

MORUS · The Mulberries

Morus alba pendula (Teas' Weeping Mulberry). A very hardy weeping tree of low growth. Trunk is straight, capped by numerous vine-like branches which droop to the ground. Foliage bright lustrous green. An excellent tree for planting on lawns, parks, and cemeteries.

	Each	Each
1-yr. heads.....	\$3 00	2-yr. heads..... \$4.50 to \$7 50

PLATANUS · Plane Tree; Buttonball

Platanus orientalis (European Sycamore). A massive tree attaining 80 feet in height. Foliage is bright green, dense, and deeply cut. The bark peels off in autumn leaving the trunk and branches a creamy color. Extensively used as a street and lawn tree.

	Each	10	Each
6 to 8 ft.....	\$2 50	\$22 50	10 to 12 ft..... \$4 50
8 to 10 ft.....	3 75	35 00	

POPULUS · The Poplars

Populus Bolleana (Bolle's Silver Poplar). A straight tree with silvery white leaves shaped like those of the maple. A pretty tree making a pleasing contrast when planted with trees of darker foliage.

	Each	Each
3 to 4 ft.....	\$1 00	8 to 10 ft.....\$3 00

P. nigra fastigiata (Lombardy or Italian Poplar). One of our most ornamental trees. Tall grower; branches erect and closely appressed to the trunk. Foliage dark green.

	Each	10	Each
6 to 8 ft.....	\$1 00	\$9 00	10 to 12 ft.....\$1 75
8 to 10 ft.....	1 25	10 00	

PRUNUS · Flowering Cherry

Prunus subhirtella pendula (Weeping Japanese Cherry). Highly ornamental, low-growing tree, with slender drooping branches, covered in May with a profusion of pink flowers. 5 to 6 ft., \$8 each.

QUERCUS · The Oaks

Quercus palustris (Pin Oak). A superb tree with pendulous branches giving a somber effect. Foliage dark green, changing to fiery scarlet in autumn. Widely planted for its beauty. One of the best Oaks for street or lawn planting.

	Each	Each
8 to 10 ft.....	\$3 50	10 to 12-ft. specimens...\$10 00
10 to 12 ft.....	4 50	12 to 14 ft.....12 00

Q. rubra (American Red Oak). A fine shade tree, with a symmetrical crown. Foliage crimson in early spring, dull green in summer, changing to brown and bronze in autumn. The leaves are very large, sometimes 9 inches in length.

	Each	Each
8 to 10 ft.....	\$4 00	10 to 12 ft.....\$5 to \$7 50

SALIX · Willow

Salix Caprea (Pussy Willow). A rapid-growing tree, doing best in moist locations. Leaves are whitish green. Bears numerous furry catkins in early spring.

	Each	10	100
5 to 6 ft.....	\$1 25	\$10 00	\$75 00
6 to 8 ft.....	1 75	15 00	125 00

S. elegantissima (ThurLOW's Weeping Willow). Similar to Babylonian but more desirable for beauty and hardiness. Bark yellowish; branches pendulous.

	Each	10	Each	10
5 to 6 ft.....	\$1 50	\$12 50	6 to 8 ft.....	\$2 25 \$20 00

S. pentandra (Laurel-leaf Willow). A low-growing tree of compact habit. Leaves are very large, dark green, and odorous when bruised. An excellent tree for ornamental planting. 3 to 5 ft., \$1 each.

S. rosmarinifolia (Rosemary Willow). A small, shrubby tree, with long, slender branches, forming a round head. Leaves long and narrow, silver-green above and hairy beneath. Quite attractive.

	Each	10	Each
3 to 4 ft.....	\$0 75	\$6 50	4 to 6 ft.....\$1 25

S. uralensis (Russian Willow). Branches red in summer, yellow in winter. Leaves slender, and deeply toothed.

	Each	Each
4 to 6 ft.....	\$0 75	6 to 8 ft.....\$1 50

SORBUS · Mountain-Ash

Sorbus Aucuparia (European Mountain-Ash). A dense tree of regular outline. Leaves dark green, turning yellow in fall. Flowers white, borne in loose clusters. Bears large scarlet berries after flowers drop. 7 to 8 ft., \$3.50 each.

TAXODIUM

Taxodium distichum (Deciduous Cypress). A shapely tree of pyramidal growth. Foliage light green and feathery. Recommended as a lawn tree. 6 to 8 ft., \$3 each.

TILIA · Linden; Lime Tree

Tilia americana (American Linden; Basswood). A stately tree with a broad spreading head. Widely used for streets and lawns. Leaves heart-shaped, dark green above, paler beneath, turning to golden in fall. Flowers creamy white.

	Each		Each
8 to 10 ft.....	\$3 00	14 to 18-ft. spec...\$35 to \$45 00	
10 to 12 ft.....	4 00		

T. europæa (European Linden). Broad, spreading head. Leaves bright green, fading to brown and yellow. Flowers creamy white, fragrant. 10 to 12 ft., \$4.50 each.

ULMUS · The Elms

Ulmus americana (American, White or Water Elm). One of the most picturesque and stately trees that grow. In old specimens the top branches are long and curve gently downward at the ends. Foliage is notched, dull green, turning to dull yellow in autumn.

	Each		Each
8 to 10 ft.....	\$2 75	10 to 12 ft.....\$4 to \$5 50	

FLOWERING SHRUBS

ARALIA

Aralia pentaphylla. A graceful shrub, with gently drooping branches. Foliage is bright green, dense, and remains until late autumn. An excellent shrub for lawn planting, for it does well under unfavorable conditions.

	Each	10		Each
1½ to 2 ft.....	\$0 25	\$2 00	3 to 4 ft.....	\$0 50
2 to 3 ft.....	40			

AZALEA

Azalea arborescens (Fragrant White Azalea). A handsome shrub with showy bright green foliage and fragrant white-and-pink flowers. 1½ to 2 ft., \$2.50 each.

A. nudiflora (Pinxter Flower). Low-growing shrub, bearing deep pink flowers before the leaves unfold. 1½ to 2 ft., \$2.75 each, \$25 for 10.

BERBERIS · The Barberries

Berberis Thunbergi (Thunberg's Japanese Barberry). A low, spreading bush of dense growth. It is possibly the best hedge-plant known as it is absolutely winterproof. It stands shearing well and looks good if a formal hedge-line is desired. If allowed to grow at will it develops a hedge of great beauty and gracefulness and yet becomes impenetrable. The foliage is of the daintiest green in spring and stands out in the most brilliant shades of orange and red in the autumn. The numerous bright scarlet berries last from fall well into winter.

	Each	10	100
12 to 15 in., bushy.....	\$0 30	\$2 50	\$18 00
15 to 18 in., bushy.....	40	3 50	25 00
1½ to 2 ft., bushy.....	50	4 50	35 00
2 to 2½ ft., bushy.....	75	7 00	60 00

BENZOIN · Spicewood

Benzoin æstivale. Grows to large size if not pruned. Foliage and wood aromatic; leaves large; flowers small, yellow, followed by red berries. 3 to 4 ft., \$1.50 each.

BUDDLEIA

Buddleia variabilis magnifica (Butterfly Bush). This variety bears handsome lilac flowers with orange spot; very pleasantly scented. Leaves large and handsome. July 10 to frost. 3 to 4 ft., 75 cts. each.

CALLICARPA · French Mulberry

Callicarpa purpurea (Chinese Beautyberry). A hardy shrub with large dark green leaves. Bears a profusion of pink flowers, followed by purple fruits remaining until midwinter. Blooms in August and berries begin in September. An excellent lawn shrub.

	Each		Each
1½ to 2 ft.....	\$0 50	2 to 3 ft.....	\$0 75

CALYCANTHUS

Calycanthus floridus (Common Sweet Shrub). A fine ornamental shrub with large green leaves, rough on upper surface. Handsome chocolate-colored flowers having a marked spicy odor. Excellent for planting with shrubs bearing flowers of other colors. April. 2 to 3 ft., 75 cts. each.

CEANOTHUS • New Jersey Tea

Ceanothus americanus. Very good for massing in front of taller shrubs. Leaves dazzling green. Flowers white and numerous. June and July. 1½ to 2 ft., 75 cts. each.

CHIONANTHUS • Fringe Tree

Chionanthus virginica. A large, well-shaped shrub, with glossy green foliage. Flowers pure white and thread-like, borne in long panicles. June. 3 to 4 ft., \$2 each.

CLETHRA

Clethra alnifolia (Sweet Pepper-bush). A vigorous, compact shrub growing to about 4 feet. Foliage dark lustrous green, fading to yellow in fall. Flowers creamy white, fragrant, borne in erect spikes. A very handsome shrub for planting in front of taller plants. 2 to 2½ ft., 75c. ea.

CORNUS • Dogwood

Cornus alba (Tatarian Dogwood). Branches red; very effective in winter.

	Each		Each
1 to 1½ ft.....	\$0 25	2 to 3 ft.....	\$0 50
1½ to 2 ft.....	40		

C. mas (Cornelian Cherry). A large dense shrub, useful in specimen planting. Flowers yellow, in small clusters appearing in early spring before the leaves unfold. Small, cherry-shaped, scarlet fruits. 1½ to 2 ft., 50 cts. each.

C. stolonifera aurea. A spreading shrub with bright yellow bark in winter. Flowers creamy.

	Each		Each
2 to 3 ft.....	\$0 50	4 to 5 ft.....	\$0 90

CORYLUS • Hazel

Corylus americana. Leaves large, velvety green. The young branches are covered with a hairy growth. Bears numerous small brownish nuts.

	Each		Each
3 to 4 ft.....	\$1 00	4 to 6 ft.....	\$2 00

CRATAEGUS • Hawthorn

Crataegus coccinea (Scarlet Thorn). A tree-like shrub growing to 20 feet. Foliage deep green and lustrous. Flowers single, white. Bears vivid scarlet fruits in autumn. Blooms in May. 4 to 5 ft., \$2 each.

CYDONIA • Quince

Cydonia japonica (Japan Quince). A showy shrub of bushy habit. Foliage glossy green; flowers brilliant scarlet. April. 1½ to 2 ft., 75 cts.

DEUTZIAS

Deutzia gracilis. A low-growing shrub of dense, compact habit. Flowers snowy white. Each 10
1 ft. \$0 40 \$3 50 | 1 to 1½ ft. \$0 50 \$4 50

D. Lemoinei. A low grower, with numerous arching branches. Foliage bright green. Flowers white, produced in abundance.

Each 10
1 to 1½ ft. \$0 50 \$4 50 | 1½ to 2 ft. \$0 75 \$6 50

D. scabra, Pride of Rochester. A handsome variety with large flowers of pinkish white. Each 10
2 to 3 ft. \$0 50 | 3 to 4 ft. \$0 75 \$6 00

ELAEAGNUS · Silver Thorn

Elæagnus angustifolia (Russian Olive). A large shrub with shiny green foliage. Flowers are yellow, fragrant, and very pretty. Berries yellow. A handsome and attractive shrub for specimen planting. June. 2 to 3 ft., 75 cts. each.

EUONYMUS

Spindle Tree; Burning Bush

Euonymus alatus (Winged Burning Bush). A handsome shrub with bright green oval leaves, changing to crimson in fall. The branches are broad and corky winged. 3 to 4 ft., \$1.50 each.

E. europæus (European Spindle Tree). A large tree-like shrub with dark green foliage. Flowers yellowish, followed by pinkish white fruits. A pleasing lawn specimen. 4 to 5 ft., \$1.50 each.

EXOCHORDA · Pearl Bush

Exochorda grandiflora. A neat-appearing shrub growing to 10 feet. Leaves bright green above, silvery green beneath, fading to yellow in fall. Flowers large, white, produced in clusters. 3 to 4 ft., \$1 each.

FORSYTHIA · Golden Bell

Forsythia suspensa (Weeping Golden Bell). A good specimen shrub with graceful, drooping branches. Foliage is dark green; flowers yellow. 3 to 4 ft., 75 cts. each.

F. suspensa Fortunei (Fortune's Golden Bell). More upright in growth than the preceding. Leaves dark green, three-lobed; flowers yellow in April.

Each 10
2 to 3 ft. \$0 40 \$3 00 | 3 to 4 ft. \$0 50 \$4 00

HAMAMELIS · Witch Hazel

Hamamelis virginica (Witch Hazel). A large spreading shrub. Leaves large and heart-shaped. Flowers are bright yellow, blooming in early fall. A good specimen shrub.

Each
3 to 4 ft. \$1 00 | 5 to 6 ft. \$2 00
4 to 5 ft. 1 50

HIBISCUS

Hibiscus syriacus (Rose of Sharon or Shrub Althea). Clumps of these shrubs make desirable additions to any lawn or landscape plan. They are strong, erect plants, and the colors of the different varieties blend nicely in a mass planting. They bear an abundance of delightful flowers from July to September. 2 to 3 ft., 75 cts. each, \$5 for 10.

HYDRANGEA

Hydrangea arborescens grandiflora (Snowball Hydrangea). A handsome low shrub, with large white flowers. Valuable for lawn and foundation planting on account of its long blooming period. May to August. 2 to 3 ft., 75 cts. each.

H. opuloides Otaksa. A vigorous, dwarf grower, with healthy, dark green foliage. The most popular variety and a fine plant for tubs and vases. Numerous large and heavy flower-heads in either pink or blue shades, although the colors are not always constant. They require some winter protection. Strong and healthy field-grown bushes, ready to bloom. \$1.50 to \$3.50 each.

H. paniculata grandiflora (Large-flowered Hydrangea). We think this variety one of the most popular of all flowering shrubs. The foliage is a clear green. The flowers are pure white, changing to pink; large in size, and produced in large clusters. To produce very large clusters of flowers this variety should be pruned each spring. Blooms from July to September.

	Each		Each
1½ to 2 ft.....	\$0 65	Tree form, 3 to 4 ft.....	\$2 00
2 to 3 ft.....	90		

H. quercifolia (Oak-leaved Hydrangea). A distinct shrub, with very large leaves, deep green in summer, changing to beautiful colors in fall. Flowers white, borne in large clusters. A handsome ornamental shrub. 1½ to 2 ft., \$1 each.

ILEX · Deciduous Holly

Ilex verticillata (Black Alder; Winterberry). This fine shrub is famous for its sprays of scarlet berries which are much used for decorating. Bears white flowers in June. 2 to 3 ft., 75 cts. each.

JASMINUM · Jasmine

Jasminum nudiflorum (Naked-flowering Jasmine). A valuable shrub on account of its early blooming period. Foliage dark green; flowers bright yellow. March. 1½ to 2½ ft., 75 cts. each, \$6.50 for 10.

KERRIA · Globe Flower

Kerria japonica flore-pleno (Double-flowered Kerria). A vigorous shrub, with bright green foliage and double, yellow flowers, somewhat rose-shaped. July to September.

	Each		Each
1½ to 2 ft.....	\$0 50	2 to 2½ ft.....	\$0 75

LABURNUM

Laburnum vulgare (Golden Chain). A large shrub, with glossy bright green leaves. The flowers are golden yellow and borne in great profusion. Ideal for specimens but also good in mass planting. 2 ft., \$1 each.

LESPEDeza

Lespedeza formosa (Tickclover). A free-flowering variety of great merit for both mass and specimen planting. Foliage green; flowers reddish purple, borne in thick, drooping clusters. Blooms September 1 to frost. 2-yr., \$1 each.

LIGUSTRUM · Privet

Ligustrum amurense, North (Amur River Privet). A shrub which will grow to fifteen feet if not trimmed. If planted in hedge, they should be at least a foot apart and closely trimmed each year. Will stand the coldest climates without injury.

	Each	10	100		Each	10	100
2 to 3 ft.....	\$0 40	\$3 00	\$25 00	3 to 4 ft.....	\$0 50	\$4 00	
				4 to 5 ft.....	90	7 50	

L. Ibota. Hardy, strong grower, with curving branches. In June there are pretty white fragrant flowers, followed by bluish black berries. 3 to 4 ft., 45 cts. each, \$3 for 10.

L. Ibota Regelianum (Prostrate Privet). Similar to Ibota, but the branches are denser, twiggy, and horizontal-spreading, somewhat drooping at the ends. Very distinct and hardy. Highly valued for hedges. Needs no trimming.

	Each	10	100		Each	10	100
2 to 3 ft.....	\$0 50	\$4 00	\$30 00	3 to 4 ft...	\$0 75	\$6 00	\$50 00

L. ovalifolium (California Privet). Good and useful for groups and mass planting. The healthy, glossy green leaves are persistent till late in winter. It stands close shearing better than any other plant. The most popular plant for hedges.

	Each	10	100		Each	10	100
1½ to 2 ft.....	\$50 per 1,000..	\$0 20	\$1 50				
2 to 2½ ft.....	\$75 per 1,000..	25	1 80				

L. vulgare (Common Privet). A strong, upright grower, generally used as a hedge plant in Europe. The leaves turn to a purple hue in fall.

	Each	10			Each	10	
2 to 3 ft.....	\$0 30	\$2 50		3 to 4 ft.....	\$0 50	\$4 00	

LONICERA · Honeysuckle

Lonicera fragrantissima (Fragrant Upright Honeysuckle). A large shrub with many spreading branches. Leaves bright green; nearly evergreen. Flowers creamy yellow; fragrant; open in early spring. Considered one of the finest plants where a tall hedge is wanted. 3 to 4 ft., 65 cts. each, \$5 for 10, \$35 per 100.

L. Morrowi (Japanese Bush Honeysuckle). Flowers are white. Bears scarlet berries in late summer and fall. April.

	Each	10	100		Each	10	100
2 to 3 ft.....	\$0 50	\$4 00	\$30 00	3 to 4 ft...	\$0 65	\$5 00	\$40 00

L. tatarica (Tatarian Honeysuckle). A beautiful variety of considerable size. Leaves bright green; flowers light pink, followed by orange-red berries.

	Each	10			Each	10	
2 to 3 ft.....	\$0 50	\$3 50		3 to 4 ft.....	\$0 75	\$4 00	

PHILADELPHUS · Mock Orange

Philadelphus coronarius (Common Mock Orange). A profuse bloomer, bearing snowy white flowers.

	Each	10			Each	10	
2 to 3 ft.....	\$0 50	\$4 00		4 to 5 ft.....	\$1 00	\$7 50	
3 to 4 ft.....	75	5 00					

Philadelphus, continued

P. coronarius grandiflorus (Large-flowered Mock Orange). Flowers large, white; leaves large. One of the leading varieties for specimen planting.

	Each	10		Each	10
2 to 3 ft.....	\$0 50	\$4 00	4 to 5 ft.....	\$1 00	\$7 50
3 to 4 ft.....	75	5 00			

P. Lemoinei, Avalanche (Hybrid Mock Orange). A pretty, graceful shrub, with slender, arching branches. Flowers white, and borne so profusely as almost to cover the shrub. 2 to 3 ft., 50 cts. each. \$4 for 10.

PHYSOCARPUS

Physocarpus opulifolius (Ninebark). Rapid-growing tall shrub; flowers white; red fruit in July. 4 to 5 ft., 75 cts. each.

PRUNUS

Prunus glandulosa fl.-pl. (Double-flowering Almond). Literally covered with dainty blossoms either pink or white. 1 to 1½ ft., \$1 each.

P. triloba (Double-flowering Plum). A shrub or tree heavily loaded in early spring with double pink blossoms. 2 to 3 ft., \$1.50 each.

RHODOTYPOS · White Kerria

Rhodotypos kerrioides. A handsome shrub, with large, green leaves and dainty white flowers. Black berries follow the blooming period. May. 2 to 3 ft., 50 cts. each.

RHUS · Sumac

Rhus canadensis (Fragrant Sumac). A spreading shrub growing to 7 feet. The leaves are large, dark green, and delightfully fragrant and turn to scarlet in fall. 3 to 4 ft., \$1 each.

R. Cotinus (Purple Fringe or Smoke Tree). Bark brown; leaves bright green, changing to red and yellow; flowers smoky purple. A fine lawn shrub. May to June.

	Each		Each
3 to 4 ft.....	\$1 50	6 to 8-ft. specimens.....	\$7 50

RIBES · Flowering Currant

Ribes aureum (Missouri or Flowering Currant). A medium-sized shrub, with green, shiny leaves and an abundance of fragrant yellow flowers. Fruit black. 3 to 4 ft., 75 cts. each.

ROBINIA

Robinia hispida (Pink Locust). Very beautiful and interesting when in bloom. The flowers are borne in loose nodding racemes, resembling a Wisteria blossom and are of a magnificent rose color. Blooms appear repeatedly during the summer. 4 to 5 ft., \$1.75 each.

SAMBUCUS · Elder

Sambucus nigra aurea (Golden Elder). A tall shrub with pithy stems and golden foliage. 1½ ft., 40 cts. each.

	Each		Each
1½ to 2 ft.....	\$0 40	4 ft.....	\$0 75

SPIRAEA • Spirea

Spiraea Bumalda. A very free-flowering variety. Flowers rose-colored, borne in large clusters. All summer. 2 to 2½ ft., 50 cts. each, \$4.50 for 10.

S. Bumalda, Anthony Waterer. A dwarf variety growing to about 3 feet in height. Flowers crimson, blooming from June to October. 1½ to 2 ft., 60 cts. each.

S. callosa. Flowers deep pink. Foliage bluish purple, very attractive. June to October. 2½ to 3 ft., 75 cts. each.

S. Douglasi. Branches are reddish brown. A very hardy form bearing large clusters of deep pink flowers. Largely planted in the West. June to August. Each 10

2 to 3 ft. \$0 50 | 3 to 4 ft. \$0 75 \$5 00

S. prunifolia plena (Bridal Wreath). An exceedingly attractive form, bearing a multitude of white flowers. The glossy green foliage becomes orange-red in fall. April and May. 2 to 3 ft., 50 cts. each.

S. Reevesiana. A tall shrub, bearing clusters of creamy white flowers. Branches droop slightly and are nearly hidden by flowers. May. 3 to 4 ft., 60 cts. each, \$5 for 10.

S. Thunbergi. Flowers white; foliage bright green. The earliest blooming Spirea. April. Each 10

1½ to 2 ft. \$0 50 | 3 to 4 ft. \$1 00
2 to 3 ft. 75

S. tomentosa. The dark green leaves are woolly beneath. From July to September, deep pink, long, steeple-shaped flower-spikes are produced in great profusion. Each 10

1½ to 2 ft. \$0 50 | 2 to 3 ft. \$0 65 \$5 00

S. Vanhouttei. A graceful shrub, with numerous arching branches. Leaves dark green, with toothed margins. Flowers snowy white. April and May. Each 10

1½ to 2 ft. \$0 30 \$2 50 | 3 to 4 ft. \$0 65 \$6 00
2 to 3 ft. 40 3 50 | 4 to 4½ ft. 75 7 00

STEPHANANDRA

Stephanandra flexuosa. A low shrub, with numerous gracefully arching branches giving a spray-like effect. Foliage glossy green, changing to red and purple. Flowers ivory-white, produced in abundance. A fine hedge plant. June. 1½ to 2 ft., 50 cts. each, \$4.50 for 10.

SYMPHORICARPOS • Snowberry

Symphoricarpos racemosus (Snowberry). A low shrub, with smooth, dark green leaves. Flowers are deep rose, followed by white, bead-like berries, remaining on the bush until forced off. July.

Each 10 Each
1½ to 2 ft. \$0 40 \$3 50 | 3 to 4 ft. \$0 75
2 to 3 ft. 50 4 50

S. vulgaris (Coral Berry). A quick-growing shrub. Dark, purplish red berries in July. 2 to 3 ft., 60 cts. each, \$5.50 for 10.

SYRINGA • Lilac

Syringa persica. Pale violet flowers in large clusters. A pretty tree at all times. 2½ to 3 ft., 75 cts. each.

S. vulgaris. A fine shrub, bearing fragrant, purplish flowers. Single. Each 10
2 to 3 ft. \$0 75 | 3 to 4 ft. \$1 00

Syringa, continued

S. vulgaris hybrids. Improved form of Lilac with larger, more fragrant flowers, single and double, in white, lavender and reddish purple.
 Each
 3 ft. \$1 50 | 4 to 5 ft. \$4 00

TAMARIX · Tamarisk

Tamarix africana. A slender, graceful shrub, with light foliage and rosy white flowers. Branches are gently arching and have red bark. May.
 Each
 1½ to 2 ft. \$0 40 | 2 to 3 ft. \$0 50

VACCINIUM · Blueberry

Vaccinium (Blueberry). Very desirable for any location; flowers pinkish white; berries blue, edible. 1½ to 2 ft., \$1.25 each.

VIBURNUM · Snowball

Viburnum cassinoides (Withe-Rod). A hardy, free-flowering shrub, with green foliage changing to purple and red in fall. Flowers rosy white, followed by dark red berries. June. 4 to 5 ft., \$1.25 each, \$10 for 10.

V. dentatum (Arrow-wood). A low-growing shrub with broad bright green leaves deeply cut on margin. Flowers creamy white, in flat clusters; purple berries. June. 2 to 3 ft., 50 cts. each, \$4.50 for 10.

V. Opulus (High-bush Cranberry). A tall upright shrub with broad bright green foliage. Flowers creamy white, followed by scarlet berries which remain all winter. June. Each
 2 to 3 ft. \$0 75 | 4 to 5 ft. \$1 50

V. Opulus sterile (Snowball). Globes of snowy white flowers in May. An old favorite. Each
 1½ to 2 ft. \$0 50 | 2 to 3 ft. \$0 75

V. tomentosum plicatum (Japan Snowball). A vigorous shrub, with showy white flowers in globe-shaped clusters. 2 to 3 ft., \$1 each.

VITEX

Vitex Agnus-castus (Chaste Tree). A tall-growing shrub with extremely showy, dark green, aromatic foliage. Flowers lilac, borne in dense drooping clusters. July and August. 2 to 3 ft., \$1 each.

WEIGELA

Weigela hybrida, Eva Rathke. One of the finest Weigelas. Flowers rich violet-red with a shade of brown. A remarkably free bloomer and worthy of extensive planting. Each
 1½ to 2 ft. \$0 75 | 2 to 2½ ft. \$1 00

W. hybrida nana variegata. A very pleasing shrub with pale pink flowers. Foliage variegated with white. 2 to 3 ft., 75 cts. each, \$7 for 10.

W. rosea. A very handsome variety with rosy pink flowers.
 Each 10
 1½ to 2 ft. \$0 40 \$3 50 | 3 to 4 ft. \$0 75 \$7 00
 2 to 3 ft. 50 4 50

XANTHORRHIZA

Xanthorrhiza apiifolia (Yellow-Root). An attractive low-growing shrub with bright golden yellow wood. Flowers chocolate-purple. 8 to 12 in., 50 cts. each.

VINES AND CLIMBERS

AKEBIA quinata. A fine ornamental vine and one of the best climbers we have. Foliage dark green, nearly evergreen; flowers are rosy purple, produced in late spring. 2 to 3 ft., 75 cts. each.

AMPELOPSIS quinquefolia (Virginia Creeper). A high-climbing vine, covered with deep green foliage with changes to fiery red in fall. A rapid grower; very handsome. 2 to 3 ft. 75 cts. each, \$5 for 10.

A. tricuspidata (Japanese or Boston Ivy). A graceful rapid-growing vine with handsome lustrous green foliage, which assumes a rich crimson tint in fall. 2 to 3 ft., 75 cts. each, \$6.50 for 10.

ARISTOLOCHIA Siphon (Dutchman's Pipe). A vigorous rapid-growing climber, bearing chocolate-colored flowers resembling a pipe in shape; leaves are large, round, and deep green. \$1.25 each.

BIGNONIA radicans (American Trumpet Vine). A splendid climbing vine with large compound leaves. Flowers orange-red inside and clear bright red on the outside, borne in July and August. A very handsome vine and one of the few flowering in midsummer. 2-yr., 75 cts. each.

CELASTRUS scandens (Bittersweet). A high-climbing vine with bright green leaves. Pods are golden and crimson, persisting all winter. 3 to 4 ft., 75 cts. each, \$6.50 for 10.

CLEMATIS Jackmani. Large, velvety purple flowers borne in great profusion. \$1 each.

C. paniculata (Japanese Clematis). A vigorous hardy climber considered by many as one of the most useful of hardy vines; bears white flowers in late summer. 2-yr., 75 cts. each.

C., Mme. Edouard Andre. Flowers purplish red, making a delightful contrast with the dark green foliage. \$1 each.

C., Ramona. Deep sky blue, large flowers. Vigorous grower. \$1 ea.

EUONYMUS radicans. A hardy, rapid-growing vine with small rich green foliage which remains all winter. 1 to 1½ ft., 40 cts. each.

E. radicans variegata. A form of the preceding, with leaves variegated with silvery white. 1 to 1½ ft., 40 cts. each.

E. radicans vegeta. A low, trailing evergreen considered as one of the finest vines. Foliage is abundant, glossy green. Quickly covers stumps, walls, or other unsightly objects. 1 to 1½ ft., 50 cts. each.

HEDERA helix (English Ivy). An old favorite climbing vine of great merit. It is very hardy and is now being used extensively for covering walls and the sides of houses. 1 to 1½ ft., 50 cts. each.

LONICERA japonica Halliana (Japanese Honeysuckle). A handsome evergreen climber with dark dense foliage; fragrant flowers, white on opening, changing to buff when fully expanded. Blooms almost continually during the summer. 2 to 2½ ft., 50 cts. each, \$4 for 10.

LYCIUM chinense (Matrimony Vine). A hardy vigorous climber, bearing an abundance of purple flowers in summer, followed by vivid red berries in autumn. An excellent vine for trellis or pergola decorations.

Each \$0 50 | 3 to 4 ft. Each \$0 75

VINCA minor (Periwinkle). A great favorite and useful for ground-cover in shady places. Pretty evergreen leaves, and blue flowers very early in spring. 10 to 12 in., 25 cts. each, \$1.50 for 10, \$10 per 100.

WISTERIA sinensis (Chinese Wisteria). A rapid-growing vine bearing purplish flowers in dense clusters, making a delightful contrast with the pale green foliage. 2 to 3 ft., \$1.25 each.

W. sinensis alba (White Wisteria). Quite similar to the preceding, but the flowers are pure snowy white. A handsome vine for use as a porch drapery. 2 to 3 ft., \$1.25 each.

ROSES

Home grounds without Roses are an anomaly. They can be grown without difficulty by any gardener who can grow annuals, and you can have beautiful blooms from June to November. Don't be afraid of Rose-growing.

TEAS AND HYBRID TEAS

Potted, \$1 each, \$9 for 10

Duchess of Wellington. Golden orange.	Mme. Edouard Herriot. Coral red.
Edel. Pure white.	Mrs. Aaron Ward. Tawny gold and pink.
Etoile de France. Crimson.	Ophelia. Pinkish white.
Grange Colombe. Creamy white.	Premier. Dark pink.
Harry Kirk. Straw-yellow.	Radiance. Rose-pink.
Jonkheer J. L. Mock. Deep pink.	Radiance, Red. Bright cerise-red.
Killarney. Pink.	Souvenir de Claudius Pernet. Yellow.
Los Angeles. Flame-pink.	William F. Dreer. Pink and yellow.
Mme. Caroline Testout. Satiny pink.	
Miss Cynthia Forde. Pink.	

HYBRID PERPETUALS

Potted, \$1 each, \$9 for 10

Gruss an Teplitz. Bright red.	Magna Charta. Bright pink.
Frau Karl Druschki. Pure white.	Paul Neyron. Bright silvery rose.

CLIMBING ROSES

Potted, 75 cts. each, \$6.50 for 10

American Beauty. Carmine.	Mary Wallace. Bright pink.
Christine Wright. Rose-pink.	Paul's Scarlet. Fiery scarlet.
Dr. W. Van Fleet. Pale pink.	Silver Moon. Cream-white.
Dorothy Perkins. Pink and white.	Tausendschon. Rose-pink.
Gruss an Teplitz. Deep crimson.	

ORNAMENTAL GRASSES

Eulalia gracillima (Japan Rush). A graceful ornamental grass, growing to about 6 feet. The reeds are long, narrow, and bright green in color. 25 cts. each, \$2 for 10.

E. japonica variegata. An ornamental grass with long green leaves striped with white. Grows to about 6 feet. 50 cts. each, \$4.50 for 10.

Phalaris arundinacea variegata (Variegated Ribbon Grass; Gardener's Garters). Grows to about 3 feet. Foliage is large, variegated white and green. A handsome ornamental grass for bordering large beds. 35 cts. each, \$3 for 10.

FERNS

For shady positions on home grounds or on the northern side of the house, Ferns make ideal plants. They do not require full sun and they are easy to cultivate. 50 cts. each, \$4.50 for 10.
